

Dear Agora friends,

Here is a report of Club 41 Italy National President Augusto Ferrari, on the state of the works of the cultural youth centre in Onna, the earthquake hit area near Abruzzo in Italy where, thanks to the joint efforts of **Club 41 Italy, Agora Club Italy, Round Table Italy and Ladies'Circle Italy** a great project is taking form : the cultural youth centre in Onna.

In the true spirit of 4 Clubs 1 Vision !

After numerous visits undertaken at Onna and contacts with the Civil Defence, made by me as National President in charge of 41Club Italy, finally on the 3rd of October 2009 came the moment when **NPO Onna** was founded (an association formed exclusively by residents of Onna). An agreement under which 41 club Italy and the other 41 clubs participating in the initiative agreed to raise funds to build the youth centre at Onna, a multipurpose center, a meeting place that could be the rebirth of an area so badly hit by the earthquake. The **NPO Onna** provides for the construction area owned by the Curia, but on loan to the **NPO Onna** for 18 years.

We had contact with some construction companies to request quotes, but then unexpectedly but almost willed by fate, we had the good fortune to meet the engineer Giulio Carnevale, father of Julia Carnevale, who lost her life during the terrible earthquake of 6th of April 2009. Daughter Julia was a graduate student in engineering and the computer that was found in her car was found a project to rebuild the house of the young person to be Onna which was also discussion of his thesis that the poor should have made Giulia a few days after the earthquake. Now the father ing. Julius Carnival was immediately made available to pick up our request and to build him (being the owner of a construction company Fer.Italia the

spa) the home of the couple, following, a project of her daughter, at best, therefore, could not happen to Italy 41 clubs which after a quick consultation, has approved and resolved to choose from the many companies, the spa Fer.Italia namely that of

Eng. carnival and to support the project of Julia Carnevale. Made the decision after a few days, on the 20th of November, started the work and send you photos that confirm what you write. Nowadays the building is completed and daytime Christmas 25th of December there was a small refreshment with the population Onnes attended

myself El'ing, Carnival and the President of NPO Onna to toast the initiative. The real opening of the building with the placing of a plaque (in which appear the symbols of the four clubs) for future reference, there will be 23/01/2020 at 11:00 am, the International President John Bellwood has already confirmed his presence and I hope that many delegates from foreign countries to intervene and trust that includes representatives of the Agora and Ladies' Circle will come that day. It will be an important day for all where we can really confirm sharing the motto: "Four Club One Vision!"

This is a summary of the minutes of our project and some photos. If we go on our website: www.clubitalia.org 41, you'll find other pictures, other documentation, interviews, DVD of our initiatives that complement the information on our project.

I remain at your disposal for more news and I am confident that the Agora International can make an economic contribution to supporting the service, payment may be made to the account that appears on our site.

See you soon and best wishes for a happy New Year!

Augusto Ferrari.
