FOCUS ON...

Our President Mihaela

Dear friends,

Being president of Agora Club International is quite cool.

Open-up! Apply and take my place!

I don't know how the former ACI presidents managed to combine their duties as mother, wife and business women with a full-time job as ACI president, but it became clear to me these past few months that teamwork is key.

Another good part is that -since October- my family members opened-up to discover all kind of new things like where the washing machine has its start button, how long it takes for an egg to boil, toilet paper and bread don't grow by themselves and they even captured the concept of a vacuum cleaner 😊

We did #openup a new year with full power engine. The **ACI Forum 2023** is already in high demand. Ladies' Circle International already had 2 of the 5 **Mid Term Meetings** where our representatives were present learning and exchanged ideas and experiences. The Side-by-side saga will continue in Africa, Asia and Central Europe.

We already had 2 Zoom meetings with our individual members, members of our **E-club**, and potential new members.

New Agora Club charters are on their way and we discuss already about AGMs.

The most precious treasure that we all have to pay attention to is time. This is unyielding and irreversible and when it is gone...it is gone.

We are building a **strategy** for a sustainable development of our organization and increase the efficiency. We are happy to receive suggestions, observations from our members, and ideas about what we can do to improve our activities, to meet our members expectations.

Get in contact with us and with your Agora friends, make new friends in our Round Table Family...never cease to be eager ambassadors for Agora!

Have a wonderful 2023 ! **#Openup** to new beginnings and inspiring challenges!

Mihaela

NOVEMBER 2022 AGORA 2 LAUSANNE CHARITY EVENT

On 15 November 2022, the club Agora 2 Lausanne organised a charity evening dinner at the Hotel Mirabeau in Lausanne. The aim of this event was to gather funds for **Handisport Riviera**. This organisation, set up in 2004, provides access to sports to all children between 5 and 16, handicapped or not, under the supervision of specifically trained instructors, thus giving them a chance to SHARE activities.

Handisport Riviera depends solely on private donations to carry out its work so we were very happy to be able to give a cheque totalling 19.000€ to its delegates.

Christmas Convoi Germany

Report by Nina Köhler and Stefanie Brüder

Finally convoy again

The „Weihnachtspäckchenkonvoi“, you could translate it by „Christmas gift convoy“ but it is easier to shortcut it as „WPK“, is the largest and most successful Side by Side project of the Round Table Family (Ladies' Circle, Agora Club Tangent, Round Table and Club 41) and Friends in Germany. Since the year 2000, the WPK has been travelling to Eastern Europe for a week every year at the beginning of December to bring Christmas presents to children in need, who would otherwise not receive presents at all. It grew from just a few packages that fit into a single truck to the highest number to date of around 156.000 in 2021. The responsible people for the Round Table family and the Friends of the convoy are working continuously throughout the year in various organisational teams to carry out this joint project.

In December it's time again: The convoy is rolling! All of the passengers not only invest their free time, but of course also some own financial means, to make children happy in the target countries of Romania, Moldova, Bulgaria and the Ukraine. The convoy motto is "children help children", therefore children in Germany pack colorful shoebox packages with toys, warm clothing, sweets, school supplies and hygiene articles, with the support of their parents, grandparents, friends, schools and children daycare centers, to help the children who are not doing so well and to make them happy. Last December Poland was also served for the first time, specifically refugee camps on the border with Ukraine, where many Ukrainian children are living since the start of the war.

Finally convoy again!

After two years of a break due to the covid-19 pandemic, we were finally allowed to drive to the target countries again ourselves to distribute packages. In 2020 and 2021, the packages were transported to Romania, Moldova, Bulgaria and the Ukraine by regular goods transportation with trucks, where they were distributed by our local partners without our help.

Local service clubs such as Ladies' Circle, Agora Club, Round Table and Club 41, but also Caritas are supporting the WPK and helping with the selection of children daycare centers, schools, children's homes and hospitals.

Finally convoy again!

On December 2, 2022, 33 trucks, 228 passengers, 5 busses and 7 escort vehicles set out to make 265.212 children's eyes light up with 132.606 Christmas parcels donated throughout Germany.

For Nina it was the third convoy after 2018 and 2019 but everything was different this time.

The WPK is divided into five sub-convoys, Romania East, Romania West, Bulgaria, Moldova and Ukraine. Since 2020, Nina has been part of the organisation team for Romania East, which is responsible for managing the sub-convoy for this region with its nine tours and about 50 passengers.

Everything was settled in countless video conferences and telephone calls, escort vehicles and trucks were organised, tours were worked out and tour guides were "recruited", the route from Hanau in Germany to Arad in Romania was meticulously planned with refueling stops and other breaks, to name just a few things necessary for the successful distribution of all the packages. All vehicles are travelling in convoy up to Arad, after which the convoy is divided into its individual routes. Again and again new challenges, a lot of organisation in advance and also during the convoy, did not allow boredom to arise. Clear conclusion: The many hours of work were worth it!

For Steffi it was the second convoy that took her to Drobeta Turnu Severin in southwestern Romania at the beautiful Danube in 2019 and 2022. Just like Nina, she is now part of the big team that organises the WPK. Since 2021 she has been part of a four people organisational team that manages the collection of packages throughout Germany and answers all questions about packing and collecting packages.

The convoy feeling is difficult to describe to outsiders. Many passengers simply call it "convoy fever" or "convoy love". But only those who have actively accompanied a convoy can really understand this!

Even the departure from Hanau is very impressive and close to everyone: Many people seem to be running around in an uncoordinated manner, sorting and distributing food, installing radios in each vehicle, putting big stickers on the vehicles to make the convoy recognisable to outsiders, making final preparations so that the convoy with its many vehicles

can start in time. Experienced frequent drivers meet WPK newcomers, whose excitement before the adventure can be seen in their faces. And everyone is waiting for the final number of packages, because this will only be announced immediately before the convoy departs. After that, the drivers have to sit up, start the engine and count by radio. Meanwhile, the passengers have boarded the busses and escort vehicles and are waiting anxiously. And then finally the convoy starts moving by honking its horns loudly. All the remaining people are saying goodbye by waving, photographing and filming the departure. This gives pure goosebumps and many shed a few tears. Depending on the region, the convoy now has a journey of around 24 - 30 hours before it reaches its destination and the distribution of the packages can start.

Finally convoy again!

For both of us, the WPK has been a project of our heart's desire for many years! Long before we have been an active part of the convoy for the first time, we already seized packages with our children and collected parcels with our club. But we don't want to miss the individually made experiences, adventures and impressions that we were allowed to experience during the tour anymore! When the first children's eyes light up during the distribution of the Christmas parcels and the children are overjoyed about a gift - these are the convoy moments that stay in our heads and, above all, in our hearts for a long time. For those children it is a special Christmas present, a gesture that conveys love and hope and that they are being thought of. We both are of the opinion that each Lady, each Tabler should have been an active part of the convoy at least once! You come back home grounded, a bit humble and you become more aware of the privileged situation in which we find ourselves.

Nina went to Alba Iulia in Western Romania during her first two convoy years. In 2022 she supported the five people team Campulung. Campulung is about 100 kilometres in the southwest of Braşov, a small former mining town. In Campulung there is a high rate of unemployment, because for many years there has not been mining anymore.

Together with the Tablers of Club 41 Campulung, around 3500 packages were distributed, mostly in schools, children day care centers and children's homes in small villages nearby Campulung.

Nina particularly remembers one children's home for disabled children, her team coincidentally was there on St. Nicholas Day: 15 children of all ages would not have received any Christmas presents without the WPK. Here often is a lack of clothing, bed linen, towels and other basic needs. There is little to no state support, the children's home is dependent on donations. St. Nicholas Day is an important day in Romania and therefore everyone was particularly grateful. In addition to the packages, Nina's team was also able to distribute sweets in the children's shoes, like it is usual in Germany. This was one of Nina's convoy moments!

Finally convoy again!

During one day, the ACI President Mihaela Crăcăna supported the team Campulung in distributing parcels. A very welcome help! She is already planning to be there again for the upcoming convoy in 2023 and therefore she has bought herself a red jacket, so that she also “looks good” with us. Because our red jackets are also an identifying mark of the WPK. The Tablers from Club 41 Campulung have teamed up with other clubs in the area to buy red jackets embroidered with "A box that brings joy" during the years of the covid-19 pandemic in 2020 and 2021, to ensure recognition of the WPK.

Steffi's team of 13 people in Drobeta also has a close, friendly working relationship with the local clubs Round Table, Ladies' Circle and Club 41. Despite the language barrier, friendships have developed over the years and everyone is very happy to meet each other again to carry out this project together. Without this joint side by side within the motto “4 Clubs 1 Vision” it would not be possible to distribute over 11.300 packages in a total of 28 individual tours in the Drobeta region. Steffi's paths led her to remote mountain regions with small schools, but also to the vast plains of Little Wallachia, where the places seem to be dying out and depopulated.

Finally convoy again!

In 2023 both of us will definitely be a small part of those dedicated Ladies, Tablers and Friends of the WPK again, who at least during the Christmas season, make the often dreary everyday life of children in some parts of Eastern Europe a little more colorful with packages that "our" German children packed for them.

We like to repeat ourselves: It is the project of our heart's desire!

Report on the Christmas Convoy by Barry Durman Vic President 41 Club International

GERMAN CHRISTMAS PARCELS CONVOY – A PERSONAL PERSPECTIVE

Back in mid 2017 a chance conversation with Bob Parton from Old Tablers Germany resulted in me getting an invitation to join the German Round Table Family Christmas Parcels Convoy. The whole convoy goes to 4 countries, but because Bob was going to Moldovia, I put my name down for Moldovia. In truth I did not even know exactly where it was on the map and had virtually no idea about Convoy!

Every year it is “the same procedure” as they say in Germany. It has grown from a small group of Round Tablers, Ladies Circlers, 41 Clubbers and Tangent Agora members over 20 years ago, to a massive operation. I have participated in 2017, 2018, 2019 and now 2022 – there was a convoy in the two Covid years but without the normal support teams.

There are two aspects to Convoy. The first is the incredible logistical operation and the second is the emotional aspect of seeing so many smiling faces when we deliver the parcels to the schools.

First the logistics - parcels of presents are made up by children in mainly German (but also Dutch and Austrian) schools. The parcels can be any size within reason and can contain any number of presents, excluding perishable or dangerous goods. The parcels need to be labelled by the children for boys, girls or either and also for one of 3 age groups – kindergarten, juniors or teenagers. This is to ensure that children get presents suitable for their age and gender. These parcels are collected by many volunteers all across Germany during September to November each year.

The next stage in November is for all the parcels to be taken to a regional centre for boxing into cartons – most cartons have 6-12 parcels. This sounds easy, but is a very complicated task. Then they all go to a national distribution centre in Koblenz, where all the lorries for the convoy get loaded – again a massive task. On the last Friday in November all the pre-loaded lorries converge on the Evonics distribution centre in Hanau, ready for departure on Saturday morning. My journey starts at Birmingham Airport on the Friday morning, where I get a flight to Frankfurt. Bob Parton and his wife Gisela usually pick me up and drive to the hotel in Hanau ready for the Friday night registration and reunion party, which is great fun, full of anticipation and a bit of trepidation. I now have so many German friends. The next morning bags are packed and it's off to the Evonics centre to rendezvous with everyone else. It's here that you realise the huge scale of the operation, which is without doubt the biggest such project across the Round Tabling World. Here are the amazing statistics from this year:

132606 parcels for 132606 children!

905 pallets

33 huge 40 tonne lorries

8 Coaches

228 volunteers

After speeches from various dignitaries, we leave with all horns blaring – it sends shivers down your spine. The convoy divides into Moldova, Romania, Bulgaria and Ukraine with our Moldovan section of 7 lorries and 2 coaches of supporters going first as we have furthest to go. It's a 42 hour trip through Germany, Austria, Hungary, Romania and Moldova and we only stop every 2-3 hours for a comfort break. Food is available on the coaches, but it is basic. Sleeping is difficult in a coach with 25-30 people which keeps stopping and has to pass through various customs.

We get one decent stop near Brasov in Romania for a proper hot meal. Then it's over the zig-zags of the Carpathian mountains and on and on in the dark for hours. After a 3-4 hour Customs control wait to get out of the EU into Moldova, we arrive Monday morning at our hotel in Chisinau, the capital city. On Monday afternoon we spent hours unloading 10,000 cartons from two German lorries into two Ukrainian lorries as they were bound for Odessa. We backed up lorries to each other and just walked backwards and forwards between them – great fun NOT!

Now for the nice, emotional part. On the Tuesday morning we all split up and our group of 9 set off for the south of Moldova – it's a remote area near Ukraine called Gagauzia, with the main town of Comrat. We were in a rattily old minibus following our lorry around badly made roads being shaken to death. We spent the next 3 days going around the kindergartens and schools in the area, sometimes travelling 2 hours between them. Each one was different, but the basic procedure was the same.

We would arrive and load an average of 30-40 of the large cartons into the school and unpack them, sorting the 150-400 parcels by gender and age. Sometimes a boy and girl in traditional dress would offer us their welcome of bread and salt. Sometimes they had prepared some songs or a couple of dances, which was so cute – remember most children were aged about 5-10, but some as young as 2. I was referred to as Santa Barry because I had dressed up a bit with my red jacket, red and white hat and natural white beard and long hair. We always sang our version of “We wish you a Merry Christmas”.

There was a couple of short speeches and then Nicholae, our guide and translator would say "would you like your presents"? They would all shout "yes". They would all line up and receive their parcel from Santa Barry, Santa Rolf and the team. On a few occasions we would stay while a class opened their parcels – this was magic – the presents inside were always lovely and the children excited and smiling. I cannot begin to tell you what a great feeling it is to be doing this, knowing that at home these children have virtually nothing and live in such poor conditions. Many will not receive any other presents, even at Christmastime.!

We have visited a few such homes, so we know that although the schools are quite nice, the home situation is far from nice. You have to be there to see the situation and feel the love!

Once or twice things got out of hand with the lorry having to park up in the street and all the townsfolk pushing and trying to get parcels for their children. Not ideal!

All the Moldovian volunteers returned to the hotel in Chisinau on the Thursday for a final night party, with food and drink, lots of speeches of thanks from dignitaries and some dancing. There was also a magician this year.

Friday at 09.00 hours we set off in the 2 coaches on the 42 hour return journey, arriving back on Sunday morning at 03.00 hours. Not particularly comfortable, but at least we can reflect on a job well done. This year, as before, Bob Parton gave me a bed for a few hours and a couple of lovely meals. Then it's onto the train back to Frankfurt Airport and home before midnight on Sunday - 10 days away in total.

I seem to have taken the Convoy drug – every year I think that this year will be the last, but when July 1st comes around, the date the registrations start, I put my name down for it again. The joy you can give and the satisfaction inside yourself are so compelling.

My thanks to all my German friends for allowing me to join their incredible adventure.

Barry Durman – 41 Club Great Britain and Ireland.
