

## Newsletter issue 1 November 2018

Dear Agora Ladies,

This Agora newsletter is dedicated to the sensational AGM that took place in the beginning of October in Gent, Belgium.

Thank you AC Belgium - well done !!

María Erla,

ACI Secretary 2017-2019

## Anna Tabone ACI President 2018-2019

Welcome to our Newsletter, the first since our AGM in Ghent last month, so it is fitting to begin with thanking the conference conveners and committee, who left no stone unturned for us to have a great time. The photos taken by Anne Higuët, tasked with the photography speak volumes. The happy faces captured showed the friendship we share and the general atmosphere of a most enjoyable weekend. Thank you...thank you.....

This Newsletter will be dedicating to the past and present Board, to the conference committee, and to the delegates who attended.

When Isabelle passed on her jewels during the Gala Dinner, I remember saying that I had no idea what I got myself into...

this is partly true, as during October, I was home for less than a week in total! But during this month, I was overwhelmed by the friendship, hospitality and commitment from so many, the ladies in Morocco, who are organising the ACI AGM in October 2019, The RT family with whom we had 2 meetings on October, Ghent and in Marrakech during the HYM of the 41ers and TCI,

and with the Icelandic ladies, who hosted us during our Board Meeting.

It is indeed a privilege and hope that I will be a good ambassador for Agora and that the story which inspired my motto A little help makes a BIG difference will inspire others.

There is much more to look forward to during this Agora year. Working closely with the board, Chris, Isabelle, Maria Erla and Vandana.

We all have one thing in common which is friendship and service. I intend to keep in contact with all the National Boards to exchange ideas on how to grow our organisation in numbers but also in exposure.

Our first HYM in Brussels in April at the same time as the AGM for the 41-club international and the AGM for Tangent Club International, will indeed be the right forum to do this.

I am looking forward to chartering Zimbabwe in March and Luxembourg in June, to welcome them to our family, to attend events organised by the Round Table family and finally, I am looking forward to experiencing the next mission of Eyes for the World.

This is the privilege.

Lots of love and friendship

Anna Tabone

ACI President 2018-19

# Chris Helsen ACI Vice President 2018-2019

Dear Agora members, all over the world,

My international Agora journey started in October in Gent, Belgium at the ACI conference. In the beautiful aula of Gent you voted in favour for me as international vice president.. **Thank you.**

As I was the only candidate, winning this election will be the most easy part of the job. I just jumped in this international agora life with an open mind and with a lot of pleasure.

My goal this year is getting acquainted with you, ladies, all over the world. It's easy nowadays with the social media: Facebook, WhatsApp, mail, skype, our Agora Club International site (<http://www.agoraclubinternational.com>) or the old fashioned way, the newsletter, phone, being present at your meetings, Charters, AGM.....

This year I will be the apprentice or trainee of Anna Tabone, our international president. With the support of all of you and the board members, I am sure it will be an educational, interesting, amazing, heart warming year.

But who am I???

I would like you to meet my family: my husband Martin, my son Jef and my daughter Kathleen. Kathleen is 24 and Jef is 23 years old.

We have a dog called Elisabeth. In the first picture ,she is 11 weeks old. and 11 months old in the following pic. As you can see she likes a good cup of coffee!

We live in Belgium in a very nice city called: Genk. It is situated in the east of Belgium, near Maastricht in the Netherlands. Because it was a former 'mining' city it's a very multicultural town.

Until 2017 I was a teacher in a secondary school in Genk. I learned my students everything about nutrition. At this moment I work in a program around healthy lifestyle and children with obesity. Challenging!! My hobbies are cycling, cooking, cultural activities, travelling, gardening, enjoying nature and of course Agora.

Ladies circle was my first service club and out of LC I started Agora Club Genk in 2010.

After a few years I was ready for a new agora challenge so I became president of Agora Club Belgium.

During my time as president of AC Belgium I enjoyed working together with the National board. What I especially enjoyed during my time as president is getting to know the different clubs in Belgium, organising the first Belgian Get Together, organising the AGM in my garden, being part of the crew of Eyes for the World and being present at charters of new clubs. I experienced a 'heart warming' agora 'family'.

And now I am ready for my international commitment, as vice international president!

YIF,  
Agora greetings,

Chris Helsen International vice president

# Isabelle Seguinot ACI IPP 2018-2019

My dear Friends,

What a great year as ACI President I had in 17-18!

One year seems to be very long but finally is so short... I tried to use every moment to meet you, work with you but also be present in my own club, the AC 39 Hyères, at work for my patients and earn money.

You gave me so much during this year that I will never forget and will cherish every minute of it, specially the moments we spent together with lots of discussions, laugh, fun and friendship.

I will not repeat in this newsletter what I wrote in my year report, you could find in the ACI Booklet on our website, but I could say that I am very proud of you!

**Proud** of you who came so numerus to attend our ACI AGM in Gent... More than 470 registrations and only one country was missing (AC Botswana)!!! It is an amazing record!!!

**Proud** of your commitment during the year and all you did for your Agora Country, EFTW

and ACI...

**Proud** of the Conference Committee directed by Veerle De Jonge, Convenor, and Danielle Gardin, co-Convenor, who made an amazing work. I had dreamt of it and they made it even much better than in my dreams!

Proud of the reflections and discussions you had during the Councillors Meeting.

*Chido, AC Zimbabwe i.f. & Christiane, AC Luxembourg i.f. reading ACI aims & objectives*

Proud of you who dressed beautifully your flag colors during the Parade, the first one in Agora Conference! What a success!!! While watching you, my eyes got full of colors and full of stars!!!

talking with  
your old friends and

Proud of you during the Welcome Party, seeing  
you having so much fun, dancing, laughing,

**Proud** of all of us during the ACI AGM in the beautiful historic Aula of the University of Gent... What an assembly! All of you, in front of us, what a great memory for us!!!

**Proud** to have given the trophies to France, The Netherlands and Norway for the best increase in your countries... 10% in total for you all!!!

**Proud** to have the complete International Round Table Family with us: Kenza Sbihi, LCI President 18-19; Paula Farnfield, TCI President 18-19; Yann Tavernier, RTI President 17-18; Fabrice Stevens, RTI CEE Chairman 18-19; Luc Trigaux, 41 Club Int. VP 18-19 and Didier Van

Calster 41 Club Int Treasurer 18-19.

**Thanks** to all of you for attending our ACI Conference and the first meeting of the President of representative of the International RT Family.

**Proud** to have given the Presidential Jewels to my dear VP Anna Tabone who will do and has already done a great job as ACI President. I wish her and her board a fabulous year!

**Thanks** to the French delegation to be so numerous and to honor me with the “golden clover” from the French RT Family (Quatalagor) during the ACI AGM

And with an awesome French Cancan during the Gala Dinner!

**Thanks** to my National Presidents for your friendship and for your nice gifts, I took the time to open them when I was back home

Thanks to Sandy and Veerle for all they did through our ISP EFTW to give a better eyesight to people in need

Thanks to my dear Boardies (Anna, Ursula, Yvonne, Maria Erla), my Dream-Team for this amazing year together.

Owl masks for a Vree Wijs Conference! “Vree Wijs” means cool/nice in English or “chouette” in French which means also an owl!

I will never forget...

During one year, you opened your eyes and your heart to do more.... Please, continue to do so as “a little help makes a big difference” ...

Lots of Love,

Isabelle

# María Erla Hilmarsdóttir

## ACI Secretary 2017-2019

To be honest then my last year on a journey as ACI Secretary has been time consuming, challenging, big learning curve and most in important a lot of fun.

The second board meeting took place in Malta last January and I was so looking forward to meet my fellow Agora board members. About 3 months had passed since we met the last time in Malta. But then, unfortunately, I got sick.

Then in April, the Board meeting three was in Austria. It was my first time in beautiful Austria and I was made very welcome by all the great Austrian Agora ladies. On the first four days, we spent a lot of time working on Agora topics and then we headed to Pörtlach to join the AGM 41 International.

The board meeting 4 was then in October or the week before the AGM in Gent, Belgium. We were home hosted by Yvonne Houben, ACI Treasurer 2016-2018, and her lovely husband Jos. After the board meeting the highlight of the Agora year took place or the AGM in Gent, Belgium. It was my first Agora AGM as an ACI secretary...what an experience. I have to say that it is a privileged to belong to the Agora world and get to take part in such a great event as the AGM truly is. I have to admit that it was intense work, sometimes stressing but.... it was amazing in every way.

Thank you all from the bottom of my heart for the support and the friendship.

María Erla Hilmarsdóttir,

ACI Secretary 2017-2019

## Vandana Deodhar ACI Treasurer 2018-2020

Hi my name is Vandana pronounced One - the-na. Originally from Pune, India, now a US citizen and have lived in Washington State for 27 years. I have enjoyed working with Agora USA on a local and national level and hope to contribute with my abilities and ideas assisting in this organization on the international level. I hope to be able to streamline the financial processes and hopefully leave a more easily managed financial system in place. I would love for the next treasurer to step into the position with a very

clear insight into the processes that need to be followed in order to manage the finances of the organization.

I know I will take much more away from being on the Agora International Board than I could ever expect to give back. I hope to build worldwide friendships and keep these special friendships throughout the rest of my life. The women in this organization are so generous and giving. There is so much that I will learn by being part of this organization and I hope to cherish and nurture these friendships for my lifetime. We as women need each other and grow from our friendships and interactions together. Many of us don't know each other yet but I hope my time on the International Board changes this and we become great friends inside and outside of Agora!

Yours in love and continued friendship,

Vandana Deodhar ACI Treasurer 2018-20

# Tone Skretting Weblady

Dear lovely Agora members,  
this is a letter from your new weblady

MEET ME:

**Tone Skretting from Norway**

MY DAUGHTER IDA  
AND HER BOYFRIEND  
AT OUR NATIONAL  
DAY, AND IN NATIONAL  
COSTUMES.

I am a dedicated and active Agora Club member. I was a vital part of founding Agora Club Sandnes 1; the very first Agora Club in Norway and simply loves to be a part of our wonderful community. Before that I was a member of Ladies Circle for many years. My passion for exploring, travelling and making wonderful connections all over world, started with Ladies Circle and is now continuing with Agora.

I am 52 years and a mother of 2 children; my daughter Ida (24) who works as a teacher and my son Ole (20) who is a student. I have just recently moved from my hometown Bryne to Sandnes with my lovely boyfriend Dan. Life is finally smiling :)

I was born and raised at Bryne, Rogaland, a small town on the west coast of Norway, but also spent a part of my childhood living in Senegal on the west coast of Africa, as my father worked on projects there. Lovely memories that I always will have in my heart.

My country Norway is known for its steep mountains and majestic fjords, and the west cost is breathtakingly beautiful any time of year if you appreciate clean air and dramatic changes of sun, rain, clouds and wind. According to me, the long beaches that lines the coast towards the North Sea is a great place to walk, think and clear your head after a long day at work.

MY SON OLE -  
WORKING ON A  
SCHOOL PROJECT.

LOVE HIKING  
IN NORWAY...

... PORTUGAL  
AND SPAIN

ME & DAN :)

I think I am a genuine creative soul, always busy creating, decorating, knitting, painting and designing fabulous stuff. People always tell so I have to believe it :) I just love to try new things.

I am a Graphic Designer, I established my own company 16 years ago; Ert Reklame. My company is placed in Sandnes and I am the only employee, and I love that flexibility that it gives me. I have many different customers, from restaurants to big shopping centre. You may have a look on my website: [www.ert.no](http://www.ert.no).

I am also on Instagram as [@fruert](https://www.instagram.com/fruert)

I humbly accepted Annas question to take over as a new web-lady. A bit challenging after so clever people as Veerle and Dirk. But I try my best, and I know they will be there if I need them. My plans are to move the website to a new platform, you will not notice this much, but it is important to upgrade the website for the future also. And the be responsible for the content of the site. The web is important for all Agora members, a platform for communicating, finding vital information and sharing news.

I love to make a diffrent, and I promise to do my best for this lovely organization.

See you soon.

Lots of love  
xxx

Tone

# Ursula Lejeune

## My time on the International board

When our President Anna asked me to write something about my time on the International Board, I really did not know where to begin and what to tell you.

Let me start from the very beginning. First of all, I am really happy to be member of Agora Club Tangent Germany. Although I have never been a member of Ladies' Circle, I was asked to be National Secretary, Club President, then National President of Agora Club Tangent Germany and finally President of Agora Club International! I am so grateful that in our organisation every lady has the same opportunities if she was a LC-member or not.

I was lucky enough to meet ladies like Bärbel, Veronika, Kelly and Sandy who asked me, no pushed me to put my candidacy forward. Without them, I would most probably never have dared to stand for president. But it is faisable, - you just have to jump in at the deep end!

„Non, je ne regrette rien“, I have no regrets!

It was definitely a wonderful, life changing experience, I would not have missed for anything in the world.

As VP I observed, learned and tried to understand and I thought to be well prepared. But once in position, I realized that suddenly I had a really busy job and I still had to learn so much more. In the beginning I struggled with my language skills when I had to write speeches, reports and lead board meetings in English ... and other languages. Very often, at the end of the day, I mixed up English, German and French!

During three years, I worked hard, (as any other board member!) improved my language skills and learned every day. I had to face challenges, overcome fears, be attentive, consilient, patient and - strong. But after all, I also knew how to celebrate, dance and to have fun!!!

Luckily, we were a super team, I met so many lovely people alongside my way, I met old friends and I made new ones within the five international organisations around the world.

I really travelled a lot, attended so many interesting events - but three of them really touched me the most and will forever stay in my heart:

## „Eyes For The World“ Project in Zambia.

I knew everything about our ISP but what a difference it makes, when you are part of the project and you are working together with the convenors and the Agora ladies. With the help of Sandy and Koen I learned how to screen the children, to detect if one or both eyes were affected. Together we gave out about 250 self-adjustable spectacles.

The smile of the children and the thankfulness of the elderly, who so much appreciated our help, warmed and touched my heart. Since then I love this project more than ever and I am happy that we can help so many children and elderly to see better and thus improve their quality of life.

I hope this project will go on for a long time!

## „Sail of Hope“ in France, Côte d’Azur

A French side-by-side-project, where children are invited on a sailing cruise for a week to recover from severe cancer treatments. On each boat a team of LC, RT, 41 or Agora took care of two kids, boys or girls. All these kids arrived in St. Raphael, in the South of France, very shy, pale and mostly tired. A medical team with doctors and nurses followed the boats to provide tests, medical treatments and to assure a correct and regular medication.

I was part of the Agora team which took care of two young girls, Eline and Melinda. A special program had been prepared by monitors for the afternoons for all the kids. Every evening had a special theme and the kids liked to dance and play in their fancy costumes.

To see the same kids one week later, sun tanned, happy, running around, laughing and joking, made the toughest man cry. The parents themselves hardly recognized their kids, who were bursting of self confidence and joy.

What a wonderful project! What a huge organisation to assure the logistics behind the scenes! „Chapeau“ for the organizing team!

## „Christmas Parcel Konvoi“, Germany

„Weihnachtspäckchenkonvoi“ „Kinder helfen Kindern“ „Kids help kids“ is a huge German service project, running for over 17 years now. Year after year, members of LC, RT, Old Table and Agora Club Tangent Germany bring Christmas parcels to children in Moldavia, Ukraine, Bulgaria and Romania.

Last year I was part of the Brasov-Team. We spent about 24 hours in the bus, we slept in the bus and prepared coffee and sandwiches for the bus and truck drivers. We brushed our teeth in the toilets of a supermarket.;) Once arrived in Brasov, we were welcomed by our Agora Ladies, Round, Tablers and 41ers. Every day we prepared the delivery for kindergardens, schools and orphanages and gave out hundreds of gifts. We were ladies, tablers, 41ers and Agora-Tangents working side-by-side to give moments of happiness to children and teenagers in the outskirts of Brasov. I already appreciated this project before, but only now I understand the huge work and the challenge of the logistics behind this service project. Incredible! Hat off for the organizing-team and all participants.

Three years on the international board is a lifechanging, enriching, fulfilling and fun experience. I met wonderful ladies, we were a super team and we became really good friends. We laughed together, we cried together, we supported each other and carried each other through rough times.

I am really thankful for this experience, for having met so many lovely and kind people around the world. I have found friends for a lifetime and I am happy to know that we can count on each other now and in the future.

Love you my forever-friends,

*Ursula*

Yvonne Houben  
ACI Treasurer 2016-2018

Agora Club International means the world to me, and it was a true pleasure working with a great team for two years — you even inspired me to make a lot of new friends for life.

Thanks for giving me the opportunity to grow with you.

See you at the next conference in Morocco.

With love

Yvonne Houben – ACI Treasurer 2016-2018

## What went on behind the scenes....

A hand-drawn decision diamond with three arrows pointing to 'Yes', 'No', and 'maybe'. A pen is shown pointing at the 'maybe' arrow.

And you all voted YES! Yipieeee 😊

A detailed map of Belgium showing its provinces and major cities. The map is color-coded: Flanders (yellow), Wallonia (orange), and Brussels (red). Major cities like Brussels, Antwerp, and Liège are marked. Surrounding countries like the Netherlands, Germany, France, and Luxembourg are also labeled.

Gent & Agora would prove to be a PERFECT MATCH !

Each of us steered one of the belgian clubs for the different events such as welcome at airports and stations, escort to the different events, the parade and welcome party, the busses and trains, visits in Gent, Bruges and Brussels, the AGM, the Gala.

## - THE MOTTO AND LOGO

Gent has such a juicy and fun local lingo, that we felt we simply HAD to incorporate that in our logo! “Vree Wijs” means : “Very cool” and what a challenge it would be to hear it pronounced from Iceland to Zambia, from the US to Israel!

Next to the Gingko Biloba leaf, the logo also incorporated the 3 famous towers of Gent, so well known now by all who were present.

## - THE WEBSITE

An important tool for information, communication and registration was the ACI2018 website. Veerle designed it, and Dirk (Veerle’s husband) hocus pocussed to make it work and get it on-line. André (Pascaline’s husband) made sure the online registration page was efficient and clear.

Yip....imagine which subject was the topic in those 2 bedrooms during 2 years ☺ ☺ ☺

## - THE PROMOTION OF THE CONFERENCE

Remember “the green wave” in Malta? No less then 35 Belgian ladies were there to promote our Vree Wijs conference with flashy green blouses, a crazy song and most of all lots and lots of enthusiasm ☺

On the conference website, on the ACI website, in the ACI Newsletters, on facebook : *Vree Wijs* was everywhere!

We kept you posted, and counted down together with you ☺

## - THE JOB

Yes, make no mistake, it was a huge job ! Many meetings, phonecalls, many hours of planning, writing agenda's, counting, doubting, listening, thinking about ideas, making scenario's, driving around, budgetting, worrying, concerning about breaking even, filling conference bags, making nametags, menu's, finding sponsors, articles for our conference booklet (first time!), registrations, meetings with caterers, DJ's, making and waiting for payments etc etc...

For myself personally as Conference convener the challenge was to manage and coach the team and keeping it enthusiastic and positive, which really wasn't difficult with such a **great team**. The support for each other was immense, the good-will heartwarming. But admittedly : we had some difficult moments too, which I think is normal when working so intensely together. These moments formed and consolidated the committee even more and accentuated the passion we all had for this great project. We all agreed : these are memories and friendships for life! ☺☺☺

## -THE RESULT

We could see you liked what we offered you and we were confident that the weekend was successful : we could see it in your **smiles**, your fun, your dancing on tables, your pats on the shoulder, your enthusiasm, your looking around in awe when entering the Aula of the AGM, your **singing**, your laughter, your little thank you notes after the conference, your sweet messages on facebook.

**A big thank** you to Isabelle and her board for the nice co-operation and warm support.

**A huge thank you** to all of you dearest Agora ladies (and partners) from all around the world for being there. For enjoying the beauty and history of Gent, and the beauty of international friendship!

*You came as friends, but you left as family !*

Veerle De Jonge

Conference convener Vree Wijs Conference 2018 in Gent

# Obituary Sonja Estoppey

We were extremely saddened to hear that Sonia Estoppey, former International Secretary of Agora, and member of Agora Lausanne, passed away.

Our sincere condolences to her family, and her many friends.

May she rest in peace.

Sonia during the AGM in Gent last October

# Sonja Trojer – Flood disaster

The damage of for one of our Agora Ladies, Sonja Trojer, after the break of the dam is terrible. Her house and fisch farm were under a flood of 1.70 m of water and mud.

She need help, she needs us. "A little help makes a big difference"

On 30.10.2018 in the area of the Waidegger Gail bridge after heavy rains the dam was broken. Our factory was completely flooded. The 15 ponds of the fish farm and the seedling basins in the hall, the slaughter room, the workshop, the sales room, the museum, the garage, the storerooms, the kitchen, the guest rooms and the toilet facilities of the company stood at a height of 1 70m under water.

Further, the residential house or a consulting room on the ground floor, the grounds were flooded a large barn and a wooden hut.

All rooms contained furniture, machinery, tractor, items that were damaged to the point of being unusable.

We clear up for days. The fire brigades and friends and the family have done an incredible job. The more cleaned up, the more I realize that almost everything is missing. There were between 30 and 50 people on the site for 4 days and helped to clean up the mud and clean up items that are already bulky.

As good as we could we found what is already missing, we try to salvage solid wood tables and armchairs. Whether we manage to do that will only be seen in spring.

We live on the shady side and have no sun for 2 months. Whether the walls and various objects survive that we do not know.

Operation (already bulky waste):

- Carpets
- Radiator
- upholstery
- boxes
- Decoration
- Armchair
- Tables
- doors
- tavern
- partly dishes / glasses
- floors
- shelves
- Networks
- bucket
- various items necessary for the operation of a company
- Only to be determined after this year's winter:

Walls, wooden ceilings, wooden walls, remaining doors, door sills, children's toys, gas stoves, plate warmers, tiles, wooden windows, window sills.

Residential house - ground floor (already bulky waste):

- parquet floors

- parquet floors
- Boxes
- Furniture
- Tables
- couch
- Gas boiler
- all office supplies / stationery / leaflets / business cards
- Doors
- about 200 books of my life coaching
- all bookkeeping, almost all files (one part we ironed)
- Only to be determined after this year's winter:

Walls, doorsticks, door, wooden windows, corner seat, the stairs, ect.

The entire extent ... I cannot determine yet. I cannot figure it out either.

Fish stock:

The loss of the fish is enormous, I had all except one pond occupied that are 14 ponds. They were washed away or suffocated in the mud. We had trout, char, trout, salmon trout from 1 to 5 years old in the area.

When spraying the basin, we noticed that almost all were gone, of the approximately 6.5 tons, we found about 200 kg.

I can estimate the loss of the fish:

- Loss of fish breeding Zerza:
- If I sold half of it in the bar, the sum would be included € 95,000
- plus the sum of the farm shop of about € 27,000

Electrical appliances / current:

We have lost 152 electrical appliances. From the mixer to the cold stores.

The entire electrical system including distributors was under water.

Our newly invested biological wastewater treatment plant € 30.000.-- and our UV drinking water plant as well as the gas tank were flooded. The car of my husband Klaus was swept along with the flood - total loss

We still have no power to start dehumidifying the buildings.

I did not mention many different little things. They belong, however to the expiration of the operation to it.

Insurance:

The insurance pays € 15,000 for the company building.

For the house € 8,000.-immediately. Eventually again 8,000. -As part of household insurance is.

For the electrical appliances comes an appraiser. If we are lucky, we get something replaced.

The fish are not replaced.

This is my current level of knowledge and I hope they have a little insight. Since the fish costs alone exceed 100,000 euros, I estimated that the total cost will be several hundred thousand euros.

Support would be a great help as I want to rebuild the business. It will not work without help.

Support would be a great help as I want to rebuild the business. It will not work without help. It will cost me not only the material but also many working hours, if it will ever be the same as it was I do not know. Fish farming has been around since 1964, the place since 1974. It was the life's work of my grandparents. I took over everything directly from you in 1991. I was happy to continue running the company. In the last 27 years, it has also become my life's work and secured my existence. It's good that there are people who make me feel like I'm not alone. I am happy about any help.

Sonja Trojer

# Agora HYM, AGM 41ers International and TCI Tangent 2019 in Brussels, Belgium

The early bird registration for the Agora HYM, the AGM for the 41ers and TCI in Brussels 2019

15<sup>th</sup> December 2018. The homepage of 41ers International [www.41clubinternational.com](http://www.41clubinternational.com)
